
Teresa Portone

Senior Member of the Technical Staff
Optimization and Uncertainty Quantification, Sandia National Labs

tporton@sandia.gov

<https://teresaportone.com/>

EDUCATION

M.S., Ph.D., Computational Science, Engineering and Mathematics. University of Texas at Austin

B.S., Mathematics. Minor in Italian. University of Alabama

PROFESSIONAL INTERESTS

Developing and applying advanced UQ methodologies for practical (large-scale) science and engineering problems. Application-area experience in subsurface transport, material modeling, and disease modeling. Experience in Bayesian inference, Bayesian model selection, global sensitivity analysis, multifidelity UQ, and model-form uncertainty/model discrepancy.

EXPERIENCE

Sandia National Laboratories, Albuquerque, NM

SENIOR MEMBER OF THE TECHNICAL STAFF, JANUARY 2020 - PRESENT

Developing and deploying state-of-the-art uncertainty quantification (UQ) methods to practical application problems, including nuclear waste repository performance assessment, nuclear deterrence applications, and disease modeling. Particular focus on multifidelity UQ, Bayesian inference, sensitivity analysis, and model-form uncertainty.

Center for Predictive Engineering and Computational Science, UT Austin

GRADUATE RESEARCH ASSISTANT, AUGUST 2014 - DECEMBER 2019

Advisor: Dr. Robert D. Moser. Developed a novel model-form uncertainty representation for an upscaled model of contaminant transport through heterogeneous porous media.

Sandia National Laboratories, Albuquerque, NM

GRADUATE INTERN, OCTOBER 2017 - DECEMBER 2017

Supervisors: Laura Swiler, John Niederhaus, Jason Sanchez. Applied Bayesian model selection to closure models for yield strength of hardened steel.

PRESENTATIONS

Invited

A stochastic operator model-form uncertainty representation of missing microstructural information. T. Portone. AGU Fall Meeting 2022, Chicago, IL, USA, December 2022.

A brief survey of uncertainty quantification. T. Portone. University of Alabama Mathematics Colloquium, November 2022.

A Whirlwind Tour of Uncertainty Quantification and Model Inadequacy. T. Portone. National Renewable Energy Laboratory, September 2018.

Conference and Other

Sensitivity analysis for deep geologic repository simulations in crystalline rock. T. Portone, P. Mariner, M. Smith, E. Basurto, R. Leone, E. Stein, L. Swiler. AGU Fall Meeting 2022, Chicago, IL, USA, December 2022.

Multimodel Methods for Uncertainty Quantification of Repository Systems. T. Portone, G. Geraci, L. Swiler, M. Eldred. International High-Level Radioactive Waste Management Conference, Phoenix, AZ, USA, November 2022.

Quantifying model-form uncertainty with an application to subsurface transport. T. Portone. University of Alabama Applied Mathematics Seminar Series, November 2022.

Data-Driven Model-Form Uncertainty with Bayesian Statistics and Neural Differential Equations. T. Portone, E. Acquesta, R. Dandekar, C. Rackauckas. 8th ECCOMAS, Oslo, Norway, June 2022.

Learning Missing Mechanisms in a Dynamical System from a Subset of State Variable Observations. T. Portone, E. Acquesta, R. Dandekar, C. Rackauckas. USNCCM16, Virtual, July 2021.

Application of Multifidelity Uncertainty Quantification Methods to a Subsurface Transport Model. T. Portone, M.S. Eldred, G. Geraci, L.P. Swiler. SIAM CSE21. Virtual, March 2021.

Characterizing model-form uncertainty in an inadequate model of anomalous transport. T. Portone, R.D. Moser. SIAM UQ 2020. Virtual minisymposium, May 2020.

Bayesian model selection for metal yield models in high-velocity impact. T. Portone, J.H. Niederhaus, J.J. Sanchez, L.P. Swiler. 2019 Hypervelocity Impact Symposium, Destin, Florida, April 2019.

An Uncertainty Representation for Model Inadequacy in a Field-scale Contaminant Transport Model. T. Portone, R.D. Moser. SIAM CSE 2019. Spokane, WA. February 2019.

A Stochastic Operator Approach to Representing Model Inadequacy. T. Portone, R.D. Moser, ICES Student Forum, February 2018.

A Stochastic Operator Approach to Model Inadequacy with Applications to Contaminant Transport. T. Portone, D. McDougall, R.D. Moser, SIAM CSE 2017, Atlanta, GA, February 2017.

Uncertainty Due to Inadequate Models of Scalar Dispersion in Porous Media. T. Portone, D. McDougall, J. Rigelo, T. Oliver, R.D. Moser. SIAM UQ 2016, Lausanne, Switzerland, April 2016.

AWARDS

2021	Technical Excellence Sandia Employee Recognition Award, DOE COVID Epidemiology Modeling Team.
2019	Rising Stars in Computational & Data Sciences Attendee
2015	Honorable Mention, NSF Graduate Research Fellowship Program
2013-2017	CSEM Fellowship, UT Austin, Oden Institute for Computational Engineering and Sciences
Undergrad Honors	B.B. Comer Math Prize two-time recipient, awarded to one student annually by the University of Alabama's mathematics department; Distinguished Undergraduate Scholar (awarded to eight seniors in 2013); Phi Beta Kappa; Pi Mu Epsilon.

LEADERSHIP & SERVICE ACTIVITIES

2021-Present	Rising Stars Organizing Committee.
--------------	------------------------------------

2020-Present	Black Leadership Committee's Research Partnerships Awareness & Engagement committee member. Sandia recruiting team member. Organizer, Sandia UQ Working Group. Co-organizer, Sandia UQ Seminar Series.
2020-2021	Co-founder and co-organizer of 1463 Early-Career Group. Sandia D1000 Workplace Enhancement Council Member.
Reviewed for	Journal of the Royal Society Interface; Proceedings of the Royal Society A: Mathematical, Physical and Engineering Sciences; ASME Journal of VVUQ
Student Leadership	CSEM Student Representative, UT Austin SIAM Student Chapter Representative (2014-2016). Graduate Student Assembly Representative (2015-2016). Secretary of Pi Mu Epsilon University of Alabama chapter (2012-2013).

PROFESSIONAL MEMBERSHIPS

Member, Society for Industrial and Applied Mathematics (SIAM)

Member, American Geophysical Union (AGU)

Member, American Nuclear Society (ANS)

Member, U.S. Association for Computational Mechanics (USACM)
